CAREER OBJECTIVE

AI/ML and full-stack engineer building GPU orchestration and async inference systems. Interested in applied AI, infrastructure, and product engineering.

EXPERIENCE

Generative AI Intern

Dec 2025 – May 2026

In2peta Services Private Limited

Remote

- Built a cloud GPU compute platform supporting multi-provider orchestration across Modal, RunPod, and Koyeb with dynamic provider routing and failover
- Designed async ML inference pipeline using BullMQ and Redis; implemented prediction polling, webhook delivery, and full job lifecycle management
- Integrated video generation models (text-to-video, lip-sync) with GFPGAN post-processing into production REST APIs via Docker-based deployments
- Implemented Stripe-based usage billing with Prisma ORM and PostgreSQL, and conducted a security audit that remediated 15+ vulnerabilities

LEADERSHIP & ACTIVITIES

IMACE 2026 - Management Team Member, GDSC PESMCOE

- Managed, organized, and judged hackathon events for IMACE 2026
- Coordinated GQuiz Up, Pitch and Innovate, and Poster Presentation events
- Supported AI/ML community programs and an open innovation hackathon for PES Modern College of Engineering

PROJECTS

Silent Failure Detector - OpenEnv Round 1 Bootcamp (2026)

- OpenEnv-compliant RL environment for training agents to detect confidently wrong AI outputs (hallucination detection)
- Programmatic reward signal with deterministic graders—no LLM-judge dependency; three difficulty tiers (easy/medium/hard)
- GitHub: <https://github.com/ruxir-ig/silent-failure-detector>

MuseTalk API - Real-Time Lip Synchronization

- REST API wrapper for MuseTalk: real-time high-quality lip synchronization using latent space inpainting
- Deep learning pipeline for audio-visual sync with GFPGAN face enhancement, built with Python and Docker
- GitHub: <https://github.com/ruxir-ig/MuseTalk-API>

SAR Image Colorization - Smart India Hackathon 2024 (Top 25)

- PyTorch and GAN-based model to colorize grayscale SAR images into RGB representations; 78% accuracy
- GitHub: <https://github.com/ruxir-ig/SAR-Image-Colorization>

CERTIFICATIONS

- Python 3.4.3, JavaScript, Java certificates from Spoken Tutorial, IIT Bombay

ACCOMPLISHMENTS

- Smart India Hackathon** - Top 25 in internal SIH 2024 (SAR Colorization); **HackRx** mentoring and **GeeksVishwa** ranked 23rd
- Open Source** - Contributed to `ascii-view`, `nitch` and filed a public `t3code` issue

EDUCATION

PES Modern College of Engineering (Savitribai Phule Pune University)

Pune, India

Aug 2023 – Jun 2027

Bachelors of Engineering, Artificial Intelligence and Data Science

Hutchings High School & Junior College

Pune, India

High School Diploma, CISCE 10th Board Exam

Jun 2008 – May 2021

- Grade: 84%
